CROSS-WORD PUZZLE 15

HOW TO SOLVE A CROSS-WORD PUZZLE

When the correct letters are placed in the white spaces this puzzle will spell words both vertically and horizontally. The first letter in each word is indicated by a number, which refers to the definition listed below the puzzle. Thus No. 1 under the column headed "Horizontal" defines a word which will fill the white spaces up to the first black square to the right, and a number under "Vertical" defines a word which will fill the white squares to the next black one below. No letters go in the black spaces. All words are from dictionaries and, except proper names, abbreviations, initials, technical terms and obsolete forms are indicated in the definitions.

The Jolly-Ate Bridge Club met this week at the home of Mrs. Olive Barker, at Number Four. All members were present and two tables of progressive bridge were played. Mrs. Rachel Kimball and Mrs. Stanforth drew the first couple at the head table and held this advantage during the entire afternoon. When the play was completed this couple out for the prize and Mrs. Rachel Kimball was the choice of Lady Luck.

Mrs. Barker again proved herself the perfect hostess, and her very complete Easter decorations gave a decidedly metropolitan touch to the party. Mrs. Barker was acclaimed for the very delicious refreshments which she served.

In spite of the fact that the mud in the roads was knee and deep, the very pleasant afternoon well repaid the members for any trials the club members experienced in attending the party. The new Easter color, Coral-pink, was in evidence and heartily approved by all.

The next meeting of the Club will be at the home of Mrs. Addie Kimball at Number Four, on April 12.

Marriage of Interest in Oxford County

The recent announcement in the Associated Press article of the marriage of Count Wilfred Lord Vernet, of Nice, France and Boston, Mass., and Miss Nancy B. Millett of Bryant Pond, Me., evidently was overlooked by Maine newspapers as an item of interest to local people.

Count Lord Vernet (who is now teaching in a private school in Boston, Mass.) is the last of the family of Vernet who are noted in art and literature in old France, and is the nephew of the famed painter, Horace Vernet.

He was also the husband of the late Countess Marcelle Lord Vernet who was found murdered in her chateau at Nice, France last October and whose death caused such a wide interest in the field of art and music, owing to the fact that the countess was an unusually talented violinist and one of the prettiest women in France of today.

Count Lord Vernet was an intimate friend of the late Leonarda Duncan, whose tragic death at Nice, last September, was followed by a weird funeral ritual at which ceremony a score of barefooted young ladies of the famous Duncan school danced a Dance of Death to the tune of Countess Lord Vernet's weird playing on the violin of a Fugue from Bach which caused the press to remark at her talent and her beauty, then later on just prior to her death Countess Lord Vernet played before the present king of Sweden, and appeared as soloist at a private musicale given by the Prince of Monaco at his palace in the famous town of that name.

Count Lord Vernet is a psychologist of renown, having studied under Freud at Vienna, Austria, and is known as an international lecturer on psychology and New Thought. He is also the author of a book of poems entitled "Pourquoi?" (Why?), a series of talks on psychology which are published in book form, and an unassuming and well-told tale which has been printed in the French, German and English languages "Mandragora." He is also a master of languages, having seven modern languages at his command and is considered an authority on Sanskrit having studied in Deoghar under Alankaranda, a noted advocate of World Peace.

Count Lord Vernet and his new bride are now residing in their apartment on Beacon Hill, Boston, Mass., and it is the rendezvous of many of the famous writers and musicians of the modern school. They are planning a trip to France, Italy and Germany in the early summer, and will doubtless spend a few weeks with the Countess's parents, Mr. and Mrs. Walter Millett, of Milton township before leaving for their home in Nice, France.

"I got so nervous my stomach felt like

it was jumping. Vinol entirely relieved

the trouble. I feel better than in years."

—J. C. Duke.

Vinol is a compound of iron, phos-

phates, cod liver peptone, etc. The very

FIRST bottle makes you sleep better and

tired people are surprised how QUICK

the iron, phosphates, etc., give new life

"And a quart of oil"

Motorists are learning the advantages of asking for oil by name. It's the sensible way to buy, because some oils are better than others.

The same is true of cements—all measure up to the A.S.T.M. standards and are good—some better than others. You get 40% above standard strength in Dragon Portland Cement.

The extra strength is inherent in Dragon. It accounts for the steadily increasing use of Dragon ever since 1889.

The extra quality is there. It costs no more. Why not get it? The Dragon dealer near you is always at your service. He is a good man with whom to do business.

The Y. M. C. A. Journaling meeting will be held Thursday evening April 12, after prayer meeting. The subject to be discussed is the advisability of allowing parsonages to be moved on to the building that was on the site. Mrs. Stevens was in the city to see that the land was given to the community and the people would like very much to have a parsonage at where it could be used.

An old landlady who is known in the removal of the "old mill" known as the Hammond and Cole Mill" beside the Stetson on South Brook in the Hollow or Pleasant Valley as it is called now. From the information that is published history of Paris, it would appear that the original mill at this place was built by the late John Ransom, who died in 1829, so there has been building at that place for almost a hundred years. For a long time it was used regularly every year for lumber, when there was sufficient water to run it.

A fine set of children's books has just been presented to the Library by Mrs. Lenora Ashton.

Plenty of work with us. Every one will be very glad to see good traveling, one more. Scott Colby is doing his part to help it along.

School began here last Monday. We are all glad to welcome Miss Bonney back.

We have had an unusual winter. It has been automobiling all winter. At the present time the frost is coming out and the roads are getting bad, but Vernon Radford was able to get through.

Dear Mr. Buxton: I was suffering with a severe case of rheumatism, having tried medicines without relief, when a friend gave me half a bottle of your Specific to try. I sent for six bottles, and after taking three, the pain was relieved, and the inflammation of the rheumatism and will gladly recommend the Specific for I know what it has done for me. If I had known of the Specific a few years ago, it would have saved me much suffering.

SUMMER

The Moving of the Mill

Not over the covered wagon trail to Oregon, but over the road from Locke's Mills to Sumner. The Tebbetts birl mill finished saving the 3rd of April, at home, and at one o'clock p. m., the 4th, Mr. Keniston, the foreman, approached the crew with an announcement that they were to move to their mill in the Green Woods of Sumner that afternoon. Mrs. Grover, the cook, was frying doughnuts at the time and the oven was full of pastry to the capacity, and a part of the crew was yet in bed, while the boys on duty began to roll the sleeping men right up in the blankets, but soon they were told what was going on and all got busy, and busy it was all the way through. Warren Scholl's truck was quickly loaded to such an extent that there was not even standing room, while at about an hour later there were four touring cars started out, all of which were well loaded. At North Paris, they caught up with the truck which was fast in a snowdrift, the crew took hold and lifted it out of the snow but while doing so they broke the universal joint. Oh, what a crew this must have been. Mr. Keniston towed the truck for a short distance with his Ford.

Mr. Keniston struck in snowdrift at Pleasant Pond hill, while Mr. and Mrs. Grover and the ladies of their Easter congregations real eager to take hold and help push their cars out of the mud on the way home from service. It just does not coincide with Easter service. Easter hearts are more pleasing in the eyes of the Lord than Easter finery, and more helpful to the mud entangled minister. Yet the finery by no means displeases minister or Master when it is added to the kindly heart.

We would like to tell some more mud stories of Easter, but here is our great disappointment, and a queer one. The "Famous Players"—No. Waterford had been working on an Easter drama. The play was to be given Easter Sunday evening and was to be the first All-Parish service of the season. Well, the play was given, and the attendance was all that could be expected, but the other communities of the Parish were shut off by sloughs of disappointment, with the exception of East Stoneham. There the friends braved the barrier and came down in goodly numbers.

However, the play was presented, and was well received by those present. "St. Claudia" was the name of the play, being the drama that was awarded first prize in a Religious drama contest held in 1924, given by the Drama League of America. That testifies to the quality of the play itself. Its presentation Sunday evening may best be judged, possibly, by reading the cast of characters.

St. Claudia, the Roman governor's daughter, a Roman Centurion, Myron Lord Barimaine, one who was born blind. Simon, one who was a leper. Elizabeth, healed of a withered hand. Earl Libbie Shimeah, cured of the palsy. George Kimball, one raised from the dead. Chester, John Isaciot, who betrayed Jesus. Claudia Procula, Pilate's wife. Mrs. Geo. Holt Beulah, one of Claudia's maidens. Teironia, one of Claudia's maidens. Miriam, a follower of Jesus. Mrs. Myron Lord Mary of Magdala, redeemed from a sinful life. Marion Rowe, a follower of Jesus. Mrs. Myron Lord Mary of Magdala, redeemed from a sinful life.

While the teamsters at Berymount with a pair of horses, and Joseph Learned with one horse left Locke's Mills at 7 a. m., arrived here at 7 p. m., with heavy loads.

Friday morning, the 6th, the Tebbetts Bros. and Penley Bros., and Jack Hollis were down to their mill yard and sealed up their birl, while there were several other visitors at the yard, also, that day. Floyd Varney also had his birl sealed, there being more than one hundred cords. Sunday, the 8th, Mr. and Mrs. Emerson Bartlett and daughters, Grace and Gertrude, spent most of the day at their daughter's, Mrs. Charles Russell's, in Hartford, while there Charlie gave the children a boat ride on his artificial pond just across the street from his house.

R. R. Palmer and O. L. Newell were through this section last week, taking valuation.

Mrs. Ida Bonney, who has been spending the winter with her sister, Mrs. Flora Haynes, of South Paris, expects to return to her home here, this week.

The class paries of the Buckfield high school have been assigned. The summer students, Ellen Spaulding, Vera Bonney and Louise Keene each received honor paries.

EAST SWEDEN

Again we hear the welcome sound of the whistle at Lee Kimball's mill. It has been silent for a while, caused by the falling in of the Dutch oven, when a new one had to be built.

The pine timber on the Russell lot is nearly cut. They are having to yard it with scoops, on account of no snow to haul it to the mill on.

Ray H. Kneeland has started up his mill, sawing shingles and long lumber.

The school here is in session with the same teacher as last term, Miss Chandler. Mrs. Isabel Ridlon transports the scholars from the Ridlon neighborhood to this school.

BETHEL-GROVER HILL

Rachel R. Mayberry from Bethel was the guest of Mrs. Linnie M. Abbott, one day recently.

Bertha Mundt came home from Gorham, Me., Saturday evening, accompanied by Mrs. Potter, who teaches at Locke's Mills.

E. C. Mills, Mason, was over the Hill one day last week en route for Bethel village.

C. L. Whitman is still substitute on Route 2 and Mrs. Whitman is conveying the scholars.

A. J. Penlee is saving his wood pile. Lee Mills saved wood for M. F. Tyler last week, with his sawing outfit.

EAST OXFORD

As Edwin O. Sands was helping Floyd E. Felton saw wood, Wednesday, a pulley broke, hitting him in the face, breaking off one tooth and cutting under the lip so badly it required several stitches to close the wound.

Miss Carolyn Strother spent the week end with friends at Wellsville.

Herman A. Record is helping Geo. H. McKenney saw his wood.

Mrs. Belle Strother gave several readings at the Pomona Grange at Wellsville April 3rd. She has been invited to read at the next meeting at Bethel.

Mrs. A. C. Whittam spent Thursday with Mrs. Floyd E. Felton.

Oxford County United Parish

Including Albany, North Lovell, Stoneham and the Waterfalls—Pastoral Staff: Revs. W. I. Bull, B. F. Wentworth, A. C. Townsend

Easter brought mud and joy to the United Parish. The mud was not the cause of it, but joy reigned in spite of it. Weather conditions, not even heavy roads, can destroy the joy of the Easter Day. In the upper end of the parish services were held in the morning at No. Waterford and Stoneham, and in the afternoon at North Lovell and Albany. There is one special feature of which we must speak in these services. The young people of East Stoneham surprised all by appearing as a choir. They, with some of the boys and girls, made the church ring with their praises, and added very much to the interest and the inspiration of the worship. There was much of appreciation packed into the words that were spoken after service: "Come again!" Considering the condition of the roads, the attendance at the services was very good.

There is just one word of appreciation of the spirit that prevails in our midst. We hardly believe many of the ministers of New York, or even of Louisiana, could find the ladies of their Easter congregations real eager to take hold and help push their cars out of the mud on the way home from service. It just does not coincide with Easter service. Easter hearts are more pleasing in the eyes of the Lord than Easter finery, and more helpful to the mud entangled minister. Yet the finery by no means displeases minister or Master when it is added to the kindly heart.
